## Part III Project Description Form

### **Instructions: Assemble information in as follows:**

Note: Please follow the order and outline below in preparing your responding entries.

1. Write a brief summary discussing your education, training, and work experience that prepared you to teach High School STEM classes.
2. List teaching and STEM awards you have received.
3. List years and locations teaching High School STEM subjects.
4. List the approximate average number of High School students taught per year in STEM subjects and average number participating in STEM competitions
5. Describe your development and support of STEM competitions.
6. Describe your teaching style and general response from students.
7. Describe mentoring activities and extracurricular support for both students and other teachers.
8. Describe how your teaching style is innovative, unique, or different.
9. List tools, procedures and techniques used to motivate students to learn about STEM subjects.
